## About our Chickens

Our roasting chickens live on pasture, forage for food and generally get to experience a fairly natural chicken existence. Pasture-raised chicken taste better and are lower in cholesterol than grain-fed chicken! We typically finish our chickens at around 3-6 lbs. We will only grow by pre-order – all orders must be received by June 1 and must include a 10\$ deposit. Chicken will be available for pick-up in late summer. We will notify you when we know the date.
